Education

Louisiana State University, Baton Rouge, LA

Bachelor of Science, Biological Engineering, Cum Laude

College of Engineering – Tau Beta Pi – TOPS Honors – President’s Honor Roll – Dean’s List

May 2026

GPA: 3.70

Skills

Skills: Pipetting, Analyzing and Recording Data, Plating, Aseptic Technique, Media Preparation and Sterilization, Culture Isolation, Beginner Circuit and Schematic Building

Software: SolidWorks, Fusion 360, MATLAB, TinkerCAD, Python, Microsoft Excel, Word, and PowerPoint

Educational and Work Experience

Server

May 2023 - Jan. 2025

Sushi Gen, Bossier City, La

- Managed up to 6 tables simultaneously, prioritizing tasks, and maintaining a high standard of customer service in a fast-paced environment.
- Accurately processed payments and food/drink orders, ensuring prompt delivery and resolving guest questions or issues in real time.
- Memorized extensive menu items, including specialty sushi rolls and sake pairings, to confidently answer guest questions, promote the brand, and upsell high-margin items.
- Trained new team members on restaurant policies, floor operations, and customer service best practices.

Active Member

Biological Engineering Student Organization (BESO), Baton Rouge, La

Aug. 2023 - Present

- Engaged in technical seminars and speaker series focused on bioinformatics, bioprocessing, and emerging trends in biomedical engineering.
- Volunteered for fundraising and outreach initiatives, supporting the organization’s events and STEM engagement efforts on campus.

Clinical Engineering Intern

May. 2024 - Aug. 2025

TRIMEDX, Baton Rouge, La

- Supported the biomedical engineering team in maintaining and servicing life-critical clinical equipment protocols across a pediatric hospital and five satellite clinics.
- Performed standardized performance testing and preventive maintenance on medical devices, ensuring strict adherence to hospital safety protocols and regulatory standards.
- Audited and tracked an inventory of 4000+ medical assets, improving equipment availability and documentation accuracy.
- Coordinated with hospital staff and technicians to optimize response times for urgent repairs, directly supporting patient care continuity.
- Gained hands-on experience in healthcare technology management within a pediatric clinical environment.

Biomechanics Data Analyst

Aug. 2025 - Jun. 2026

Marucci Sports and LSU, Baton Rouge, LA

- Developed and optimized MATLAB scripts to clean and organize extensive motion capture (AMM) datasets, reducing manual processing time and ensuring data integrity.
- Analyzed raw biomechanical data of professional Major League Baseball players to identify key performance metric and trends, translating complex motion capture output into actionable insights for the performance team.
- Maintained strict adherence to proprietary data handling protocols, ensuring the confidentiality and security of elite athlete performance profiles.
