Education

Louisiana State University, Baton Rouge, LA

May 2026

Bachelor of Science, Biological Engineering, Cum Laude

GPA: 3.70

College of Engineering – Tau Beta Pi – TOPS Honors – President’s Honor Roll – Dean’s List

Skills

Skills: Pipetting, Analyzing and Recording Data, Plating, Aseptic Technique, Media Preparation and Sterilization, Culture Isolation, Beginner Circuit and Schematic Building

Software: SolidWorks, Fusion 360, MATLAB, TinkerCAD, Python, Microsoft Excel, Word, and PowerPoint

Educational and Work Experience

Server

May 2023 - Jan. 2025

Sushi Gen, Bossier City, La

- Managed up to 6 tables simultaneously in a high-pressure environment, successfully prioritizing shifting tasks, processing accurate payments, and resolving guest issues in real time.
- Memorized an extensive menu of 120+ items, including specialty sushi rolls and sake pairings, to confidently translate technical product details into engaging recommendations.
- Selected to personally onboard and train 6 new team members on restaurant policies, complex floor operations, and customer service best practices.

Active Member

Biological Engineering Student Organization (BESO), Baton Rouge, La

Aug. 2023 - Present

- Engaged in technical seminars and speaker series focused on bioinformatics, bioprocessing, and emerging trends in biomedical engineering.
- Volunteered for community fundraising and outreach initiatives, supporting STEM engagement efforts on campus to drive social interest in engineering disciplines.

Clinical Engineering Intern

May. 2025 - Aug. 2025

TRIMEDX, Baton Rouge, La

- Supported the biomedical engineering team in maintaining and servicing life-critical clinical equipment protocols across a pediatric hospital and five satellite clinics.
- Performed standardized performance testing and preventive maintenance of 1000+ critical medical devices, ensuring strict adherence to hospital safety protocols and regulatory standards.
- Audited, mapped, and tracked an inventory of 4000+ medical assets, improving equipment availability and documentation accuracy under strict regulatory standards.
- Coordinated with 30+ hospital staff and technicians to optimize response times for urgent repairs, reducing equipment downtime and directly supporting patient care continuity.
- Gained hands-on experience in healthcare technology management within a pediatric clinical environment.

Biomechanics Data Analyst

Aug. 2025 - Jun. 2026

Marucci Sports and LSU, Baton Rouge, LA

- Developed and optimized MATLAB scripts to clean, process, and organize extensive motion capture (AMM) datasets, completely automating the data-cleaning pipeline and eliminating 100% of manual processing time while ensuring total data integrity.
- Analyzed raw biomechanical data of over 50+ professional Major League Baseball players to identify key performance metrics and trends, translating complex motion capture output into clear actionable insights for the performance team.
- Maintained strict adherence to proprietary data handling protocols, managing and securing 100% confidentiality for high-value athlete performance profiles.
